

1. KLOVE radio serves me as a resident of my community by filling my heart and soul with good, godly music and programming that affects my attitudes and my actions every day of my life, and therefore affects how I interact with my surrounding community.
2. If KLOVE is displaced by an LPFM broadcaster providing other programming my community will be adversely affected because the thousands of people who live here will no longer have this positive influence on their lives everyday.
3. I believe the services provided by KLOVE are in the public interest because they contribute GOOD, not evil, to the world. They contribute family-friendly programming, positiveness, love, encouragement and goodwill. Don't you think the world needs more of this kind of message??!!
